## Accessibility of Community Arts Events for Children with Physical/Cognitive/Developmental/Mental/Behavioural Conditions and Their Family

### What is the project about?

Researchers from the Curtin Autism Research Group are investigating the barriers and facilitators for children with physical/cognitive/developmental/mental/behavioural conditions accessing community arts events.

### Who can participate?

Parents or carers of children with physical/cognitive/developmental/mental/behavioural conditions aged 0 - 17 years.

### What would you do?

Participate in a teleconference interview or focus group sharing your thoughts and experience on accessing community arts event for the child you care for.

### What are the benefits for participating?

Every child has a right to participate in art, however, not all children have ready access to it. Your participation will help us improve the accessibility of community arts events for children with physical/cognitive/developmental/mental/behavioural conditions.

### Further Information

To express your interest in participating or to find out more, please contact: Dr Elinda Lee on (08) 9266 1790 or [elinda.lee@curtin.edu.au](mailto:elinda.lee@curtin.edu.au)

or scan the QR code

As a token of appreciation, a \$20 gift card will be given to participants for their time

Curtin University Human Research Ethics Committee (HREC) has approved this study (HREC number HRE2017-0147)

Make tomorrow better.
